Usage Insights

Fresh Milk usage increased by 35% this week compared to last week.

Coffee beans consumption rose by 20% during peak hours (8 AM – 11 AM).

Sugar usage decreased by 15%, indicating lower demand for sweet beverages.

Inventory Restocking

Restock coffee beans (2kg) within the next 2 days to prevent stockout.

Order at least 10 liters of milk today to meet projected demand for the next 3 days.

Increase sugar stock by +20% due to rising usage trend this week.
